

2008 Special Issue: Earthquake Engineering in the low and moderate seismic regions of Southeast Asia and Australia

Forward, C. F. Lee

Editorial, NTK, Lam

1

Guest Editor's Opening, RKL, Su

2-5

Part I Seismic hazard and design ground motion

The New Response Spectrum Model for Australia, *Lam NTK & Wilson JL*

6-24

Development of the New Australian Earthquake Loading Standard, *Wilson JL, Lam NTK & Pham L*

25-31

A review of the Current Vietnamese Earthquake Design Code, *Ngo TD, Nguyen MD & Nguyen DB*

32-41

Seismic Hazard of Hong Kong, *Pappin JW, Koo RCH, Free MW & Tsang HH*

42-56

Seismic Hazard of Singapore and Malaysia, *Balendra T & Li Z*

57-63

Evaluation of Site Effects in Hong Kong, *Pappin JW, Koo RCH, Free MW & Tsang HH*

64-76

Challenges of Low-to-Moderate Seismicity in India, *Murty CVR & Malik Javed N*

77-87

Part II Seismic effects on buildings and structures in low-to-moderate seismicity regions

An Overview of Research at HKU on HSRC Columns and Beam-Column Joints for Low-Medium Seismic-Risk Regions, *Pam HJ, Ho JCM & Li J*

88-98

Seismic Behaviour of Buildings with Transfer Structures in low-to-moderate Seismicity Regions, *Su RKL*

99-109

Seismic Drift Demand and Capacity of Non-seismically Designed Concrete Buildings in Hong Kong, *Su RKL, Lam NTK & Tsang HH*

110-120

Overtopping of Non-structural Components in Low-moderate Seismicity Regions, *Lam NTK & Emad Gad*

121-132

Seismic Design of Bridges for Prevention of Girder Pounding, *Hao H and Chow N*

133-141

Appendix A (Presentation): The Sichuan Earthquake: structural engineering perspectives, *RKL, Su*

Appendix A
1-40

Appendix B (Report): A report on the visit to the region stricken by the Wenchuan Earthquake, *Kafle B, Mohyeddin-Kermani A and Wibowo A*

Appendix B
1-31
