

## Structural Performance Assessment of Civil Infrastructure

### CONTENT

Content	I
Forward	II
eJSE Impact	III
Guest Editorial	IV

### Special Issue Papers

Seismic Performances of High Rise Reinforced Concrete Frame Structures with Added Buckling Restrained Brace Elements <i>D. Purba, I. Imran, M. Moestopo, A. Watanabe, T. Hikino, D. Siringoringo</i>	1-12
Use of Non-Destructive Methods: Case Studies of Marine Port and Bridges Structures in Surabaya <i>Y. Oktavianus, M. Sofi, E. Lumantarna, M. Maizuar, P.A. Mendis, C. Duffield, A. Rajabifard and H. Widyastuti</i>	13-22
Dynamic Behavior of Indonesian Bridges using Interferometric Radar Technology <i>M. Maizuar, E. Lumantarna, M. Sofi, Y. Oktavianus, L. Zhang, C. Duffield, P. Mendis and H. Widyastuti</i>	23-29
Health Assessment of a Pedestrian Bridge Deck using Ground Penetrating Radar <i>S. Miramini, M. Sofi, A. Aseem, A. Baluwala, L. Zhang, P. Mendis, C. Duffield</i>	30-37
Prediction of Railway Vehicles' Dynamic Behavior with Machine Learning Algorithms <i>N. Nadarajah, A. Shamdani, G. Hardie, W. K. Chiu and H. Widyastuti</i>	38-46
Leak Detection and Quantification of Leak Size along Water Pipe using Optical Fibre Sensors Package <i>L. Wong, R. N. Deo, S. Rathnayaka, B. Shannon, C. S. Zhang, J. Kodikara &amp; W. K. Chiu and H. Widyastuti</i>	47-53
Water Pipe Condition Assessment Using Submersible Quasi-distributed Optical Fibre based Pressure Transducers <i>L. Wong, R. Deo, S. Rathnayaka, B. Shannon, C. S. Zhang, J. Kodikara &amp; W. K. Chiu and H. Widyastuti</i>	54-60
